ONGC Q4 Net Slides 35% to ₹6,448 crore

Our Bureau

New Delhi: ONGC has reported a 35% year-on-year drop in the fourth-quarter profit to ₹6,448 crore on higher exploration cost write-off. Revenue from operations for the January-March quarter rose 1% to ₹34,982 crore. Profit for the full year 2024-25 dropped 12% to ₹35,610 crore. Annual revenue dropped 0.5% to ₹137,846 crore. ONGC wrote off exploratory well costs of ₹4,173 crore in the January-March quarter, compared to ₹794 crore in the year-ago period. For the year 2024-25, the write-off was ₹7,480 crore as against ₹3,690 crore in the previous year. ONGC realised an average crude oil price of \$73.72 per barrel during the fourth quarter from its nomination field, down 9% from the year-ago period. The gas price during the quarter was \$6.5 per mmbtu, the same as in the corresponding quarter. The company reported a marginal production decline in both oil and gas during the quarter. Its standalone crude oil production was up 0.9% in 2024-25 to 18.56 million metric tonnes. It drilled 578 wells during the year, the highest in the last 35 years.

None Found Suitable for NTPC Chief's Role

New Delhi: The government headhunter on Wednesday found none of the dozen candidates suitable for the role of chairman and managing director of India's biggest power producer NTPC, as its string of struggle in finding the right candidates for top job at PSUs continued. The Public Enterprise Selection Board (PESB) interviewed a dozen candidates — half of them directors on board of NTPC and other state-owned firms — but found none suitable to be appointed chairman and managing director when the incumbent Gurdeep Singh superannuates on July 31. "The board did not recommend any candidate for the post and advised the Administrative Ministry/Department to choose an appropriate course of further action for selection including the search-cum-selection committee (SCSC) or as deemed appropriate with the approval of the competent authority," PESB said in a notice posted on its website. NTPC is the latest bluechip public sector firm where the government headhunter struggled to find the right candidate. Since 2021, PESB has failed to find a suitable candidate for at least four other PSUs — Oil and Natural Gas Corporation (ONGC), Indian Oil Corporation (IOC), Hindustan Petroleum Corporation (HPCL), and Bharat Petroleum Corporation Ltd (BPCL). Search-cum-selection committee route was taken wherever PESB failed to find suitable candidates. —PTI

Bitcoin Hits New High Amid US Regulatory Optimism

Bloomberg

Bitcoin hit an all-time high after the advancement of stablecoin legislation in the US stoked hopes of regulatory clarity under President Donald Trump.

The largest cryptocurrency climbed as much as 2.6% to a record \$109,730, breaching a previous high set at roughly the time of Trump's inauguration on January 20. Smaller tokens such as Ether and XRP also advanced.

Bitcoin and the broader crypto market have rallied in recent weeks thanks to regulatory tailwinds including the stablecoin bill advancing in the US Senate after a group of Democrats dropped their opposition on Monday. The industry-backed regulatory bill is now set for debate on the Senate floor with a bipartisan group hoping to pass it as soon as this week.

"It's the shift of approach from Gary Gensler and the SEC to this Trump administration, which has embraced

our industry," Michael Novogratz, founder and chief executive officer of Galaxy Digital, said during a Bloomberg TV interview on Wednesday.

\$109,730

"That freed up the animal spirits both here and abroad." The terms of the proposed legislation were revised to include tighter restrictions on money laundering, foreign issuers, technology companies and improved consumer protections. It would also ensure domestic and foreign issuers

both face the same rules. Bitcoin was christened as a haven by some market participants during the financial markets turmoil spurred by the introduction of Trump's trade tariffs. That narrative has gained traction as of late as fractious US budget negotiations keeps a focus on the growth in deficit spending.

"We're in a really hard position in this country when you have this kind of debt. And you're seeing it with long ends of interest, yield curves selling off everywhere, the dollar is under pressure," Novogratz said. "That is all good for Bitcoin and crypto assets as well."

Options traders have already built bullish positions on Bitcoin earlier this week with the \$110,000 calls, \$120,000 and \$300,000 expiring on June 27 seeing the most open interest, or the number of outstanding contracts on Deribit. Demand for short-dated calls that are expiring before late June with the strike prices above \$110,000 has surged in the past 24 hours, according to Amberdata.

Covid Testing Rises Amid Asia Case Surge

Hong Kong: Demand for Covid tests is increasing in Hong Kong as cases surge in recent weeks, according to the top executive of diagnostic kit-maker Phase Scientific International.

The Hong Kong-based company, which is a major provider of Covid testing kits in Asia Pacific, has seen business gain because of the Covid wave across Asia, chief executive officer Ricky Chiu said in an interview with Bloomberg.

Health authorities in densely-populated Hong Kong and Singapore have warned that Covid-19 cases are spiking, while data from the Chinese Center for Disease Control and Prevention showed the Covid wave in China is on track to reach last year's summer peak. Shares of Covid test kit and drug makers in Asia have risen tracking a surge in infections. "Covid is a seasonal thing," said Chiu, adding that "definitely there is a spike in the business." —BB & AFP

NCLT Seeks Counsels' Help to Execute BPSL Liquidation

Suryash Kumar

New Delhi: The National Company Law Tribunal (NCLT), on Wednesday, deferred the hearing of Bhushan Power and Steel's (BPSL) insolvency case to May 26.

The tribunal sought the assistance of the counsels appearing in the case to implement the Supreme Court's judgment. Earlier this month, the SC scrapped JSW Steel's ₹19,700-crore acquisition of BPSL completed four years ago, citing "gross violation" of the Insolvency and Bankruptcy Code (IBC), and ordered the liquidation of the company.

The top court has observed violations of norms or processes by key stakeholders—JSW Steel, the committee of creditors, and the resolution professional.

Emphasising that the NCLT has to operate within

the findings of the Supreme Court and its role is limited, NCLT president, Justice Ramalingam Sudhakar, asked the counsels: "How do you want to address this? Are you reviewing this? The decision, he said is very clear: "It (Supreme Court) says NCLT, NCLAT, please strictly obey our orders. So, we have to be doubly careful," Sudhakar said.

He also posed a question regarding the management of BPSL. "Someone has to take control, or there has to be something to safeguard the state of Corporate Debtor?" Sudhakar asked.
