Press Release

Uno Minda to Set Up Greenfield Aluminium Die Casting Facility in Maharashtra to Support Growing EV Demand

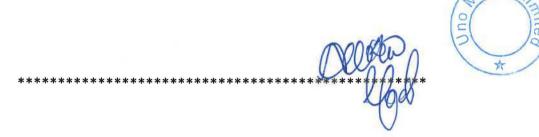

Gurugram – June 19, 2025: Uno Minda Limited, a global technology leader in automotive components and systems manufacturing, has announced that its Board of Directors has approved the setting up of a greenfield manufacturing facility for aluminium die casting in Sambhaji Nagar (Aurangabad) Maharashtra. This strategic expansion is aimed at meeting the rapidly growing demand for casting components, particularly in electric two- and four-wheelers (e-2Ws and e-4Ws).

With the accelerating shift towards electric mobility, aluminium die casting has emerged as a critical requirement for lightweight, high-performance vehicle platforms. Electric vehicles require significantly more aluminium-based structural and thermal components compared to their internal combustion counterparts—making advanced die casting capabilities central to EV powertrain and body applications.

The upcoming facility will also play a vital role in supporting Uno Minda's backward integration strategy by supplying essential casting components to its forthcoming 4W-EV powertrain plant. Located in Sambhaji Nagar (Aurangabad), Maharashtra, the site has been selected to ensure logistical efficiency and proximity to both the new EV powertrain plant and other key OEM customers in the region.

The project involves a total planned capital investment of approximately ₹210 crore, to be implemented in a phased manner over the next five years. The investment will be funded through a balanced mix of internal accruals and debt. Phase 1 of the plant is expected to commence commercial operations by Q2 FY27.

This investment reaffirms Uno Minda's long-term commitment to strengthening domestic manufacturing capabilities, supporting localisation efforts, and staying ahead of the curve in the fast-evolving electric mobility space.

UNO MINDA

Press Release

About Uno Minda Limited:

Uno Minda Limited incepted in 1958, is a global technology leader in Auto component and systems manufacturing supplying to leading OEMs in the world. They design and manufacture over 25 categories of components and systems for vehicles across all segments (passenger cars, commercial vehicles, two- and three-wheelers) catering to both internal combustion engines (ICE) and electric/hybrid vehicles.

It is one of the leading manufacturers of automotive switching systems, automotive lighting systems, automotive acoustics systems, automotive seating systems and alloy wheels. It has a leadership position in almost all the products it manufactures. **Technology and innovation are the two strong pillars of the organisation,** on the basis of which it has continued to lead the emerging trends in the automotive sector, over the past six decades.

The Group is a global player in the automotive sector with 74 manufacturing facilities in India, Indonesia, Vietnam, Germany, Spain, and Mexico, as well as 37 R&D and Engineering Centres in India, Germany, Czech Republic, Japan, Taiwan, Korea & Spain. It has 19 JVs/Technical Agreements with world renowned manufacturers from Japan, Germany, Korea, and China.
